Professional Experience

Integration Developer   09/2023 - Present

Polarising   Remote, PT

- Design, develop, and document APIs in MuleSoft for AdvanceCare, integrating with databases and external systems using Stored Procedures, Kafka, REST, and SOAP.

- Define API specifications with API Designer, develop integrations in MuleSoft Anypoint Studio, and manage builds and deployments through GitLab CI/CD.

- Test and validate APIs using Postman, ensuring thorough documentation in Confluence.

- Work closely with cross-functional teams to deliver scalable, high-performance integration solutions.

- TECHNOLOGIES: MuleSoft, Kafka, Jira, Confluence, GitLab, SQL, Java

Full Stack Developer (Internship)   11/2022 - 07/2023

Bee Engineering   Remote, PT

- BeeIn - Developed a professional networking platform for the company using C# .NET, Entity Framework, React, JavaScript, TypeScript, and Docker.

- GameShop - Built an e-commerce platform for Nectar Interactive, allowing customers to browse, buy, and customize games, using C# .NET, Entity Framework, React, JavaScript, TypeScript, and Docker.

- Bee the Best - Developed a tournament management website to track events, participants, and rankings.

- SamurAI - Created an AI-powered sentiment analysis application using Python, Django, and Angular, leveraging machine learning techniques to analyze text data.

- TECHNOLOGIES: C# .NET, Entity Framework, React, JavaScript, TypeScript, Docker, Python, Django, Angular

Computer Technician (Internship)   06/2016 - 01/2018

Escola Superior de Saúde - Politécnico do Porto   Porto, PT

- Design, development, and maintenance of software solutions.
- Maintenance and support for computer hardware.
- Database design, implementation, and administration.
- Development of multimedia products, including interactive applications and digital content.
